

Siren, beacon and telephone relay in one unit. This optical and acoustic signalling device is designed for use in any rough indoor or outdoor noisy environment. The device is very compact, and efficient to install. It provides siren audio signal of 90dB and strobe light of 3 Joules.

**FEATURES**

- Heavy duty construction
- Easy installation, only power supply and connection to designated tel. line is required
- 4 different sound frequencies, from 5 to 20Hz
- 2 xenon bulbs (2 LED Optional)
- 5 colours: Clear, Red, Amber, Green, Blue
- Ex-proof version TWIN-230EX(Optional)

**SPECIFICATIONS**

Power Supply	230V AC
Sound pressure at 1W / 1m	90 dB
Audio signaling device	Piezoelectric disc
Audio signal	2 or 3-tone melody, 4 different
Optical signaling device	Flash tube E = 3 Ws
Flash frequency	2 - 4 Hz
Power supply	230V AC (24V DC - LED ver. only)
Material	Cast Aluminim, coated in plastic
Colour	Black
Cap Material	Impact and cold resistant plastic
IP rating	IP-66
Temperature range	20°to +60° C
Weight	0,9 kg
Dimension (H x W x D)	195 x 150 x 104 mm
Approvals / Compliance	CE EX-version: II 2G EEx [ib]em IIC T6 PTB 99 ATEX 2115
