

The USC-120 is a 15W public address speaker amplifier unit used to drive speakers or loudhailers in public areas where a high sound pressure level is required. Audio and control is send to the unit via an analogue telephone line. The unit is enclosed in an IP66 polycarbonate box, and can be used in exposed areas even on deck. Additionally unit has a N.O. or N.C. relay output activated when the amplifier is activated or when ringing is send to the unit. This can be used for activating external signaling devices, gate control etc...

FEATURES

- Can be called from any telephone
- Call-up relay for external signaling device.
- Connection for 1 or 2 horn speakers
- Many units can run one one extension number
- Receives PA calls
- Receives Alarm calls
- Bulkhead instalation

OPTIONAL

- Hornspeaker
- External signaling devices

SPECIFICATIONS

Power supply	24V DC
Power output - horn speaker	15W
Load impedance	8 Ω
Relay contact	250V AC 1A
Material	Polycarbonate
Colour	Grey
Temperature range	-25°to +55°C
IP rating	IP-66
Dimensions (H x W x D)	130 x 94 x 57 mm
Weight	0,3 kg
Approvals / Compliance	CE
