

UTP-10

SOUND SOURCE MODULES

The UTP-10 FM/AM tuner, UCD-10M CD/mp3 player and UCDR-10 CD/mp3 player with FM/AM tuner modules has been especially developed for installation in the compartment provided for this purpose on the PA systems based on UPAS amplifiers. The modules can be installed very easily. The required fasteners and connectors as well as detailed installation instructions are supplied with the devices.

FEATURES

- The modules can also be installed in any other device (amplifier, central audio unit, etc.).
- The tuner has 18 presets, 2 x 6 for FM and 1 x 6 for AM.
- Tuning and programming is performed with the respective buttons.

SPECIFICATIONS
