

The Seiko Marine Clock is literally the result of Seiko's many years of experience and achievements in its determined pursuit of accuracy and reliability, and horological fine arts and the most advance electronics are assimilated in it. Space-saving design and easy operations of this Master Clock have been achieved by adopting a thin movement and the microprocessor.

FEATURES

- High-accuracy crystal clock
- 0,5s slave clock output
- 30s slave clock output
- Logger signal output
- Alarm signal output
- Automatic power switch (AC to DC in case of AC failure)
- Automatic LT (Local Time) adjustment by adjust key
- LCD display and 2 secondary analogue monitors(0,5s step, 30s step) are illuminated with dimmer
- Active operation monitor via LCD display
- Digital signal input/output with accordance to NMEA0183 available
- Accumulated error correction by 0-second adjust button
- Exclusive spare parts SP-5A and SP-5B available (Optional)

SPECIFICATIONS

Operating voltage	220V AC / 24V DC aux
Power consumption	50W
Material	Steel
Colour:	Pale green (2.5G7/2) Bluish green (7.5BG7/2)
Temperature range	-10° to +55°C
Dimensions (W x H x D)	365 x 300 x 120 mm
Weight	5,6 kg
Approvals / Compliance	CE
